PLACO® RAÍL THR100

Metal profiles

Product Description

Metal profile in Z-275 g/m² galvanised steel, 100 mm width, constituting the horizontal perimeter ''U''-shaped element that is screwed into the upper and lower slabs. They ensure the connection and alignment between vertical THM posts in Placotherm® Integra complete sheet façade systems.

Storage and conservation

Store on flat surfaces and never outdoors, keep covered, away from sunlight and rain.

Conditions of installation

Installation is recommended using other Placotherm® Integra products and accessories for façade solutions. Please consult the Building Solutions for Laminated Plasterboard Manual, the façade catalogue and the Placo® Installer's Manual.

Handling

The use of Category 4 cut resistant gloves is recommended. Remember that you can find information about how to handle, use and unload our products on our website.
